THE OPERATING SYSTEM OF EMPIRE: A SIMPLIFIED TRUTH

I. The Ancient Blueprint (2500 B.C. – 1500 A.D.)

- **The Invention of Slavery**: Slavery was pioneered by the Ancient Sumerians in 2500 B.C. (modern-day Iraq, Egypt, and the Middle East). These populations all share blood DNA with the Sumerians.
- **The Biblical Exodus**: The Quran contains 35 verses confirming the Egyptians enslaved the Jews. It states that the prophet Moses and his family were of Hebrew descent and that Moses freed the Jews from Egyptian slave owners.
- **The Iberian Shift**: Middle Easterners brought slavery to Portugal and Spain in 700 A.D. because Europe, the Middle East, and Africa share the same continuous land strip. Spain and Portugal act as the border countries to white European nations.
- **The Invasion of Latin America**: Over 800 years, Islam used multiculturalism to shift the values, heritage, morals, religion, and culture of Spain and Portugal, interbreeding with the populations. When Spain and Portugal invaded Latin America in the 1500s, they killed 8–20 million Neo-Siberians.
- **The Mongolian DNA Connection**: Modern DNA reveals the Incas, Mayans, and Aztecs are genetically Mongolian. A Neo-Siberian carries the equivalent of a modern Mongolian's DNA, sharing 40% of the same markers after 4,000 years. Modern Hispanics are a DNA mix of African, Middle Eastern, Mongolian, Spanish, and Portuguese lineages.

II. The British Emulation & The 1400s Infiltration

- **The British Shift**: The exact same thing happened to the UK. Britain was a Christian country since the 1st century. Within 200 years of Islam arriving in the 1400-1500s, the British elite traveled to Africa to purchase slaves and bring them to America.
- **The Missing Link**: How did the British randomly know to travel to Africa for slaves? Islam is the reason. Islam and Middle Easterners are the largest slavers of Africans in history, with 18 million documented African slaves.
- **Two Kinds of Slavery**: Whites originally used slavery only for prisoners of war, utilizing them for domestic housework and small labor, but never on a large, government-approved scale. Middle Easterners used slaves to actively take over foreign governments and countries. The British saw this model and emulated it, copying both the slave architecture and the Middle Eastern legal system.
- **Modern UK Consequences**: Due directly to multiculturalism, the UK is now 35-45% atheist, plagued by grooming gangs, and has no less than 10 Muslim mayors running its major cities.
- **The Palermo Link: The proof of this transfer is written directly in The Dialogue of the Exchequer (1179), an official book written by the King's own Treasurer. It explicitly records that Thomas Brown held a unique, powerful seat at the English auditing table, using his Sicilian-Arabic training to run the financial software of the Crown.**

III. The White Slave Reality in America (1600s – 1910)

- **The Earliest Slaves**: In America, whites were slaves prior to the arrival of African slaves. Whites remained enslaved for up to 45 years after black slaves were freed in 1865.
- **The British Monopolies**: The British were the only white slave owners in America; there were virtually zero other European slave owners. Conversely, there were black slave owners who operated the third-largest plantation in America.
- **The Indentured Trap**: Whites were classified under private contracts as "indentured servants" (temporary slaves). Because these were private contracts, masters routinely extended terms for minor offenses, refused to free them, and killed or resold them with zero consequences. Approximately 50% of all white slaves were killed before their 4-7 year term ended.
- **The 1790 Naturalization Act**: If and when freed, white slaves were denied the land and money they were promised, living with zero rights or protections. This is exactly why, after 300 years of this abuse, the USA passed the Naturalization Act of 1790.
- **Cromwell's Shipments**: Tens of thousands of literal white slaves were shipped to America in mass numbers during the 1600s Cromwell era. White slaves were forced into the most dangerous jobs that masters refused to risk expensive black property on, and were used as a frontline human shield to die in wars.
- **Breeding Programs**: British masters sold white women by the hundreds of thousands, shipping them to plantations to breed with black slaves for their entire lives so masters could sell the offspring for maximum profit. This practice did not end until the 1900s.
- **The 1910 Acknowledgment**: The White Slave Traffic Act of 1910 (The Mann Act) stands as the final federal legal acknowledgment that whites were being trafficked and used as slaves in America long after 1865.

IV. The Global and Regional Slave Markets

- **The African Precedent**: Africa practiced indigenous slavery for 1,000 to 3,000 years before whites learned of it, sparked by Islam arriving in Africa in the 3rd-5th centuries.
- **The Barbary Slave Trade**: North African networks enslaved millions of white Europeans, kidnapping them and selling them across the Caribbean, Barbados, the Middle East, and Jamaica from the 1400s to the 1800s.
- **Black Slave Owners**: From the early 1600s, nearly 5,000 African slave owners in America owned white slaves. This specific reality is why the Virginia Slave Act of 1705 was passed—in a direct attempt to stop Africans from owning white laborers.

V. The Naming Theft: Exposing "Smith"

- **The Master's Stamp**: The last name "Smith" is an occupational slave name rooted entirely in Britain. The word Smith never existed in the native languages of Ireland or Scotland.
- **The True Bloodline**: The closest word to Smith in Gaelic DNA is *McGowan*, *MacGowan*, or *Ghabhain*.
- **The Forced Rebrand**: Because British elites were the only white slave owners in America, European laborers were forced to take the last names of their masters. Alternatively, survivors were forced to change their names to stop systemic discrimination and hide their heritage under the guise of a "voluntary name change." The name Smith remains a direct reminder of the hardships your ancestors endured
- **The Case of Tanistry (1608): This name theft was locked into place by The Case of Tanistry, where British judges officially outlawed our traditional, decentralized Brehon Law. By making our native legal system a crime, they ensured that a McGowan had zero legal standing to own land or sue a master unless they surrendered their true clan bloodline and registered under a service name like Smith.**

VI. Frontier Realities: Smallpox, Syphilis, and Alliances

- **The Imperial Natives**: The Incas, Mayans, and Aztecs operated brutal imperialistic systems and practiced the exact same takeover form of slavery for 1,500 years before Spain and Portugal arrived.
- **The True 1776 Alliance**: America is not "stolen land." European settlers and Native Americans (Native Siberians who crossed the Bering Strait 16-20 thousand years ago) fought *together* against the British colonizers for a free America. If Europeans had not intervened, the British would have enslaved and killed all the native populations.
- **The British Deception**: The British told native tribes they would stop encroaching on their land if they fought against the European settlers and their native allies.
- **The Posh Accent Deception**: After the Declaration of Independence was signed, the British elites deliberately altered their accent to distance themselves from the crimes they committed against white Europeans in America. The rhotic English spoken in America today is actually how the British spoke for 1,800 years prior to 1776; the "Posh" accent is a fake invention only 200 years old.
- **The Biological Truth**: The smallpox blanket narrative is a one-sided distortion. The native populations introduced syphilis to the European explorers. This venereal "Great Pox" decimated Europe, causing a centuries-long biological disaster that almost wiped out the entire continent.

VII. The False Prophet Doctrine

- **The Islamic Claim**: Islam operates as a false prophet religion. Muhammad claimed to be the final prophet of the Christian Bible, yet he lived 500 years after Christ, is completely non-biblical, and performed zero miracles to prove he spoke

for God. There is no historical footprint of Islam outside of the book he wrote, his spoken teachings, and his biography.

- **Christian Literacy vs. Islamic Subjugation**: When Christianity arrived in the UK in the 1st century, it established widespread literacy, charitable giving, care for the sick, and advanced architecture. Conversely, Islamic expansion historically brought mass casualties, mass violence, child marriages, and the total subjugation of women. Christianity is a matter of free choice; Islam demands total submission.
- **The Doctrine of Taqiyya**: Islam instructs followers in *Taqiyya*—the strategic use of lying, cheating, and deception to shield oneself and further the religion. This doctrine has fueled over 70,000 Islamist terrorist attacks globally between 2001 and 2026.

VIII. The Modern Drug Triangle & Political Collusion

- **The Global Supply Chain**: China, Hispanics, Africans, and Middle Eastern networks are mass-colluding with global liberals and democrats to destabilize Western populations through an integrated drug network that controls 90% of the meth market.
- **The Triangle Mechanics**: China sells the raw chemical precursors to Hispanic cartels; the cartels synthesize the meth; the cartels distribute the finished drugs to African street gangs for retail distribution.
- **The Money Laundering Loop**: Chinese nationals inside America collect the dirty cash through shell companies and non-profits, swapping it for clean Chinese currency to trade for shipped commercial goods back to Hispanic countries.
- **The European Fallout**: Now that the U.S. executive branch has officially designated Mexican cartels as terrorist organizations, the entire Hispanic cartel network has shifted operations into Europe. Cartel chemists are currently teaching European gangs how to synthesize industrial-scale meth, causing an immediate spike in deaths because the EU refuses to apply terrorist designations to their financial networks.

IX The Ultimate Deception: The Unbroken System. The Common Law Trap: The legal and banking system Great Britain utilizes is the exact same Common Law architecture that America uses today. Despite the public narrative that we won our independence in 1776, the underlying financial and judicial infrastructure never changed. The Middle Eastern Legal Blueprint: We were systematically tricked. The executive leaders and kings change, but the core system remains completely untouched. The foundational legal model adopted by the British elite was copied directly from the ancient Middle Eastern law codes used to manage populations for thousands of years. Protection of the Institution: The true design of this continuous operating system is entirely defensive. It is engineered explicitly to protect multi-generational businesses, elite banking institutions, and centralized government structures from the scrutiny, legal standing, and resistance of ordinary citizens.
